DATE: May 23, 2023

TO: Mayor and Council Members

FROM: City Manager’s Office

SUBJECT: Acceptance of State Homeland Security Grant Program (SHSGP) Funds

RECOMMENDATION:
It is recommended that the Mayor and Council Members take the following actions:

1. Approve Subrecipient Agreement between Los Angeles County and the City of Inglewood for State Homeland Security Grant Program (SHSGP) Funds in the amount of $250,000; and
2. Adopt a resolution accepting $250,000 from the State Homeland Security Program Grant Funds and approving its appropriation to the General Fund.

BACKGROUND:
In 2018, the State Homeland Security Grant Program (SHSGP) allocated funds for the development of a comprehensive crisis management software platform aimed at cities within the Los Angeles Operational Area. In prior years, the City of El Segundo Fire Department has served as the fiduciary agent for this project, overseeing the creation of an Emergency Operations Center (EOC) crisis management operating platform for all participating cities.

The City of Inglewood has actively contributed to the project governance group, providing assistance throughout the development process and volunteering as one of the beta test sites for the software platform. This participation was particularly beneficial to the City of Inglewood as the host for Super Bowl. The software became an integral component of the City’s Super Bowl Public Safety Response Plan, and served as the primary tool for multi-agency coordination and situational awareness. Today, this platform is essential for the effective management of large-scale events, disaster preparedness, and potential recovery efforts.

DISCUSSION:
The City of Inglewood, working in partnership with the Los Angeles County Homeland Security Grants Administration Office, has agreed to take over the grant-funded project as the fiduciary. In this capacity, the City of Inglewood will collaborate with the County of Los Angeles to maintain the platform and actively lead the governance group. The City of Inglewood will benefit from full access to the software platform without incurring any additional charges or administrative expenses while managing the project.

In May 2023, the Los Angeles County Homeland Security Grants Administration Office provided a Subrecipient Agreement between the County of Los Angeles and the City of Inglewood to distribute 2020 SHSGP funds in the amount of $250,000 to the City of Inglewood.
The grant will cover the full cost of services for the crisis management system and reimbursement of all eligible expenses. As a result of the current bridge contract with Buffalo Computer Graphics for crisis management software, the City will receive no less than $198,135.51 in reimbursement from the grant.

FINANCIAL/FUNDING ISSUES AND SOURCES:
Upon adoption of the attached resolution and execution of the agreement, $250,000 grant funding will be received in Account Code No. 226.099.9981.5151.00 (Public Safety Grants Fund-Non-Departmental-Interfund Transfer-State Homeland Security Grant Program) and utilized through Account Code No. 001.099.9981.45678.00 (General Fund-Non-Departmental-Interfund Transfer-Indirect Cost-SHSGP Grant).

§201. Performance Period

The performance period of this Agreement is from September 1, 2020 to May 31, 2023, unless the County of Los Angeles, with Cal OES approval, provides written notification to the Subrecipient that the performance period has been extended, in which case the performance period will be so extended by such written notification, as provided in §503, below.
§202. **Use of Grant Funds**

A. Subrecipient and the County of Los Angeles have previously completed a mutually approved budget/expenditure plan, hereinafter “Budget,” for the 2020 SHSP, which has been approved by Cal OES. This information is contained in a copy of the Final Grant Award Letter and Project Worksheet, attached hereto as Exhibit E.

Any request by Subrecipient to modify the Budget must be made in writing with the appropriate justification and submitted to CEO for approval. If during the County of Los Angeles review process, additional information or documentation is required, the Subrecipient will have ten (10) business days to comply with the request. If the Subrecipient does not comply with the request, CEO will issue written notification indicating that the requested modification will not be processed. Modifications must be approved in writing by the County of Los Angeles and Cal OES during the term of this Agreement. Upon approval, all other terms of this Agreement will remain in effect.

Subrecipient must utilize grant funds in accordance with all Federal regulations and State Guidelines.

B. Subrecipient agrees that grant funds awarded will be used to supplement existing funds for program activities, and will not supplant (replace) non-Federal funds.

C. Subrecipient must review the Federal Debarment Listing at [https://www.sam.gov/SAM/pages/public/searchRecords/search.jsf](https://www.sam.gov/SAM/pages/public/searchRecords/search.jsf) prior to the purchase of equipment or services to ensure the intended vendor is not listed and also maintain documentation that the list was verified.

D. Prior to the purchase of equipment or services utilizing a sole source contract or the receipt of single bid response of $250,000.00 or more, justification must be presented to CEO, who upon review will request approval from Cal OES. Such approval in writing must be obtained prior to the commitment of funds.

E. Subrecipient must provide any certifications or reports requested by the County of Los Angeles to the CEO indicating Subrecipient’s performance under this Agreement, including progress on meeting program goals. H. Subrecipient must provide Corrective Action Plan(s) to CEO within thirty (30) days of any audit finding.

I. Subrecipient use of the Los Angeles Regional Interoperable Communication System’s Motorola Solutions, Incorporated Land Mobile Radio System Contract to purchase equipment is unallowable unless the Subrecipient can clearly demonstrate to CEO it meets one of the four federal exceptions to necessitate a noncompetitive procurement before issuance of any contract, amendment, or purchase order.

J. Subrecipient shall not use grant funds to purchase, extend, or renew any Telecommunications and Video Surveillance services and equipment as substantial or essential component of any system, or as critical technology as part of any system which the Secretary of Defense, in consultation with Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an owned, controlled by, or connected to the People’s Republic of China such as and not limited to Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); or Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

E. It is understood that the County of Los Angeles makes no commitment to fund this Agreement beyond the terms set forth herein.

F. 1. Funding for all periods of this Agreement is subject to continuing Federal appropriation of grant funds for this program. D. The Subrecipient may not subcontract with a former director, officer, or employee within a one-year period following the termination of the relationship between said person and the Subrecipient.

E. F. For further clarification of the meaning of any of the terms used herein, the parties agree that references are made to the guidelines, rules, and laws of the County of Los Angeles, State of California, and Federal regulations regarding conflict of interest.

The Subrecipient covenants that no member, officer or employee of Subrecipient may have interest, direct or indirect, in any contract or subcontract or the proceeds thereof for work to be performed in connection with this project during his/her tenure as such employee, member or officer or for one year thereafter.

I. The Subrecipient must incorporate the foregoing subsections of this Section into every agreement that it enters into in connection with this grant and must substitute the term "subcontractor" for the term "Subrecipient" and "sub subcontractor" for "Subcontractor".

3. Americans with Disabilities Act

Subrecipient hereby certifies that, as applicable, it will comply with the Americans with Disabilities Act 42, USC §§12101 et seq., and its implementing regulations. Subrecipient will provide reasonable accommodations to allow qualified individuals with disabilities to have access to and to participate in its programs, services and activities in accordance with the provisions of the Americans with Disabilities Act. Subrecipient will not discriminate against persons with disabilities nor against persons due to their relationship to or association with a person with a disability. Any subcontract entered into by Subrecipient, relating to this Agreement, to the extent allowed hereunder, will be subject to the provisions of this paragraph.

4. Political and Sectarian Activity Prohibited

STATEMENT ON THE DRUG-FREE WORKPLACE

To comply with the enactment of Senate Bill 1120, \textit{(Chapter 1170, Statutes of 1990)}, which established the Drug-Free Workplace Act of 1990, the \underline{\textit{(your agency)}} accordingly provides this statement of compliance.

In order to maintain funding eligibility, state agencies, along with those in receipt of grant and contractual awards, must certify that they provide drug-free workplaces and have issued drug-free workplace statements to their employees \textit{[Section 8355(a) of the Government Code]}. Consequently, in accordance with this directive, this statement is issued to meet this requirement.

The \underline{\textit{(your agency)}}, an agency within the State of California has adopted this statement in compliance with legislation which addresses issues to avoid the dangers arising from drug and alcohol abuse in the workplace. These dangers include death and injury to the employee, co-workers, or the public resulting from accidents, dereliction of duty, poor judgment and carelessness. Substance abuse also results in lost productivity, reduced efficiency, and increased absenteeism by the substance abuser and interferes with the job performance of employees who do not use illegal or unauthorized substances. \textit{[Section 8355(b)(1)]}

California law prohibits the unlawful manufacture, dispensation, possession, or illegal use of a controlled substance. That prohibition extends to all places and includes the worksite of California state employees. \textit{[Section 8355(a)]}

Employees convicted of a violation of criminal drug statute, when the violation occurred at an employee’s worksite, shall report the conviction to the granting and monitoring State agency upon conviction. \textit{[Section 8356(a)(1)(2)]}

In the event of the unlawful manufacture, distribution, dispensation, possession or illegal use of a controlled substance at a State worksite, the State may take disciplinary action pursuant to the law and/or require the satisfactory completion of a drug abuse assistance or rehabilitation program. \textit{[Section 8355(b)(4)]}

The Employee Assistance Program (EAP) provides drug problem assessment and referral to appropriate counseling and rehabilitation services. The EAP is available to all agency employees. Procedures exist to ensure the confidentiality of EAP records. Contact your personnel office for further information.

It is the intent of the \underline{\textit{(your agency)}} to ensure by execution of this statement of compliance that each employee shall abide by the terms of this drug-free workplace statement. \textit{[Section 8355(c)]}

Overview

The Fiscal Year (FY) 2020 Homeland Security Grant Program (HSGP) is one of three grant programs that constitute the Department of Homeland Security (DHS)/Federal Emergency Management Agency’s (FEMA’s) focus on enhancing the ability of state, local, tribal, and territorial governments, as well as nonprofits, to prevent, protect against, respond to, and recover from terrorist attacks. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by DHS to help strengthen the Nation’s communities against potential terrorist attacks. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, HSGP supports the goal to Strengthen National Preparedness and Resilience. In FY 2020, there are three components of HSGP:

1) **State Homeland Security Program (SHSP):** SHSP assists state, local, tribal, and territorial efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

2) **Urban Area Security Initiative (UASI):** UASI assists high-threat, high-density Urban Areas efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

3) **Operation Stonegarden (OPSG):** OPSG supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies to improve overall border security. OPSG provides funding to support joint efforts to secure the United States’ borders along routes of ingress/egress to and from international borders, to include travel corridors in states bordering Mexico and Canada as well as states and territories with international water borders. State, local, tribal, and territorial (SLTT) law enforcement agencies utilize their inherent law enforcement authorities to support the border security mission and do not receive any additional authority as a result of participation in OPSG.

The 2018-2022 FEMA Strategic Plan creates a shared vision for reducing the risks posed by terrorism and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. HSGP supports the goals of Building a Culture of Preparedness and Readying the Nation for Catastrophic Disasters. We invite our stakeholders and partners to also adopt these priorities and join us in building a more prepared and resilient Nation, as preparedness is a shared responsibility and funding should support priorities that are most impactful and demonstrate the greatest return on investment.

Finally, for FY 2020, DHS is focused on the criticality of information sharing and collaboration to building a national culture of preparedness and protecting against terrorism and other emerging threats to our national security. DHS and its homeland security mission were born from the “failures among federal agencies and between the federal agencies and state and local authorities to share critical information related to the threat of terrorism” prior to the September 11, 2001, attacks.¹ The threat profile has changed in the last two decades— we now face continuous cyber threats by sophisticated actors, threats to soft targets and crowded places, threats to our democratic election.

---

process and threats from new and emerging technologies. But information sharing and cooperation between state, local, and tribal authorities and federal agencies, including all DHS officials, is just as vital, and perhaps even more vital, today. Therefore, for FY 2020, we have identified four priority areas, tied to some of the most serious threats that DHS would like to see addressed by state and local governments, that recipients will need to address with their HSGP funds. Perhaps most importantly, we will be focused on forging partnerships to strengthen information sharing and collaboration in each of these priority areas and looking for recipients to remove barriers to communication and cooperation with DHS and other federal agencies.

Objectives

The objective of the FY 2020 HSGP is to fund state, local, tribal, and territorial efforts to prevent terrorism and prepare the Nation for threats and hazards that pose the greatest risk to the security of the United States.

Priorities

Given the evolving threat landscape, it is incumbent upon DHS/FEMA to continuously evaluate the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2020, four priority areas attract the most concern. And due to the unique threats that the nation faces in 2020, DHS/FEMA has determined that these four priorities should be addressed by allocating specific percentages of HSGP funds to each of these four areas, for a total of 20 percent. The following are the four priority areas for FY 2020, along with the corresponding amount of HSGP funds that each recipient will be required to propose for each priority area in order to obtain a full allocation of HSGP funds:

1) Enhancing cybersecurity (including election security) – 5 percent
2) Enhancing the protection of soft targets/crowded places (including election security) – 5 percent;
3) Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS – 5 percent;
4) Addressing emergent threats (e.g., unmanned aerial systems [UASs], etc.) – 5 percent.

Failure by a recipient to propose investments and projects that align with these four priority areas and spending requirements may result in a recipient receiving a reduced grant award. DHS/FEMA may not award funding in excess of a recipient's minimum allocation threshold to the extent that investments and projects do not align with these four priority areas.

A State or high-risk urban area may allocate the remaining 80 percent to gaps identified through their Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) Process.

Likewise, there are several enduring security needs that crosscut the homeland security enterprise, and to which that States should consider allocating funding across core capability gaps and national

---

2 The Homeland Security Act of 2002, as amended, allocates for each of the 50 States, the District of Columbia, and Puerto Rico 0.35 percent of the total funds appropriated for grants under section 2003 and section 2004 of the Act, and 0.08 percent for each of the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands).
priorities. The following are enduring needs that help recipients implement a comprehensive approach to securing communities:

1) Effective planning;
2) Training and awareness campaigns;
3) Equipment and capital projects; and
4) Exercises.

The table below provides a breakdown of the FY 2020 SHSP and UASI priorities (the focus of OPSG remains unique to border security), showing the core capabilities enhanced and lifelines supported, as well as examples of eligible project types for each area. A detailed description of allowable investments for each project type is included in the Preparedness Grants Manual. DHS/FEMA anticipate that in future years, national priorities will continue to be included and will be updated as the threats evolve and as capability gaps are closed. Applicants are strongly encouraged to begin planning to sustain existing capabilities through other funding mechanisms.

**FY 2020 HSGP NOFO**
Starting in FY 2020, each SHSP and UASI recipient is required to submit an Investment Justification (IJ) for each of the four national priorities identified above. Under the Cybersecurity investment and the Soft Target/Crowded Places investments one project for each of those two investments must be to support enhancing election security. As a reminder, all SHSP- and UASI-funded projects must have a demonstrated nexus to preventing, preparing for, protecting against; and responding to acts of terrorism. However, such projects may simultaneously support enhanced preparedness for disasters unrelated to acts of terrorism.

DHS/FEMA also requires SHSP and UASI recipients (e.g., states, territories, and high-risk urban areas) to complete a THIRA/SPR and prioritize grant funding to support closing capability gaps or sustaining capabilities that address national priorities and/or support enduring needs. Additional information on the THIRA/SPR process, including other National Preparedness System (NPS) tools and resources, can be found at [https://www.fema.gov/national-preparedness-system](https://www.fema.gov/national-preparedness-system). Detailed information on THIRA/SPR timelines and deadlines can be found in the Preparedness Grants Manual.

SHSP Allocations

For FY 2020, DHS/FEMA will award SHSP funds based on risk and the anticipated effectiveness of the proposed use of grant funds upon completion of the application review process. The following table identifies the targeted SHSP allocation ranges for each State based on DHS/FEMA’s relative risk methodology pursuant to the Homeland Security Act of 2002, as amended. States are strongly encouraged to apply for funding at least 15% over the high end of their target allocation range as ineffective applications will not be funded. Final award amounts will be based on DHS/FEMA’s evaluation of the effectiveness of proposed investments and projects.

Regardless of the amount of a State’s targeted SHSP allocation range, each State must include a separate investment for each of the four national priority areas identified in the Priorities section, above. The funding level in each national priority area investment must equal or exceed the percentage for that respective national priority area, calculated as a percentage of the State’s targeted SHSP allocation in the table below. For the states that receive a target allocation in excess of the minimum, the percentage is calculated against the high end of the range, as displayed in the table below. DHS/FEMA will make final award determinations based upon a review of the anticipated effectiveness of the State’s application as described in Section D, below. Final awards are based on whether the State has proposed investments in each of the four national priority areas in an amount equal to or greater than the percentage for that priority area and based on the effectiveness review.
DHS/FEMA will allocate to each state and territory a minimum allocation under the SHSP using thresholds established in the *Homeland Security Act of 2002*, as amended. The minimum allocation for all 50 States, the District of Columbia, and the Commonwealth of Puerto Rico is 0.35 percent of the total funds appropriated for grants under Section 2003 and Section 2004 of the *Homeland Security Act of 2002*, as amended. The minimum allocation for the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) is 0.08 percent of the total funds appropriated for grants under Section 2003 and 2004 of the *Homeland Security Act of 2002*, as amended. THIRA/SPR results do not impact grant allocation or award.

Regardless of the final award amount, a state must invest SHSP funding in each of the four national priority areas in an amount equal to or greater than percentage identified above for each national priority area, as approved by DHS/FEMA.

UASI Allocations

Eligible candidates for the FY 2020 UASI program are identified in the table below. Eligibility has been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States, in accordance with the Homeland Security Act of 2002, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at https://www.census.gov/programs-surveys/metro-micro.html. THIRA/SPR results do not impact grant allocation or award.

For FY 2020, DHS/FEMA will award UASI funds based on risk and the anticipated effectiveness of the proposed use of grant funds upon completion of the application review process. The following table identifies the targeted UASI allocations for each high-risk urban area based on DHS/FEMA’s relative risk methodology pursuant to the Homeland Security Act of 2002, as amended. Applicants are strongly encouraged to apply for funding at least 15% over the high end of their target allocation range as ineffective applications will not be funded. Final award amounts will be based on DHS/FEMA’s evaluation of the effectiveness of proposed investments and projects.

In its application, each high-risk urban area, through the State, must include a separate investment for each of the four national priority areas identified in the Priorities section, above. The funding level in each national priority area investment must equal or exceed the percentage for that respective national priority area, calculated as a percentage of the high-risk urban area’s targeted UASI allocation in the table below. The percentage is calculated against the high end of the range, as displayed in the table below. DHS/FEMA will make final award determinations based upon a review of the anticipated effectiveness of the high-risk urban area’s application as described in Section D, below. Final awards are based on whether the State has proposed investments in each of the four national priority areas in an amount equal to or greater than the percentage for that priority area and based on the effectiveness review. Regardless of the final award amount, a high-risk urban area must invest UASI funding in each of the four national priority areas in an amount equal to or greater than percentage identified above for each national priority area, as approved by DHS/FEMA.

### OPSG Allocations

For FY 2020, DHS/FEMA will award OPSG funds based on risk and the anticipated effectiveness of the proposed use of grant funds upon completion of the application review process. The FY 2020 OPSG risk assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the security of the border and the effectiveness of the proposed projects. Entities eligible for funding are the state, local, and tribal law enforcement agencies.
that are located along the border of the United States. DHS/FEMA will make final award
determinations based upon a review of the anticipated effectiveness of the State’s application as
described in Section D, below. The THIRA/SPR process is not required for OPSG.

For the purposes of OPSG, the risk is defined as the potential for an adverse outcome assessed
as a function of threats, vulnerabilities, and consequences associated with an incident, event, or
occurrence.

Based upon ongoing intelligence analysis and extensive security reviews, DHS/CBP continues to
focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG
funds considers the potential risk that certain threats pose to border security and estimates the
relative risk faced by a given area. In evaluating risk, DHS/CBP considers intelligence,
situational awareness, criminal trends, and statistical data specific to each of the border sectors,
and the potential impacts that these threats pose to the security of the border area. For
vulnerability and consequence, DHS/CBP considers the expected impact and consequences of
successful border events occurring in specific areas.

Threat and vulnerability are evaluated based on specific operational data from DHS/CBP.
Threat components present in each of the sectors are used to determine the overall threat score.
These components are terrorism, criminal aliens, drug trafficking organizations, and alien
smuggling organizations.

Effectiveness of the proposed investments will be evaluated based on the recipient’s investment
strategy, budget, collaboration, and past performance.

**Period of Performance:** 36 months
Extensions to the Period of Performance (PoP) are allowed. For additional information on PoP
extensions, refer to the Preparedness Grants Manual.

**Projected Period of Performance Start Date:** September 1, 2020

**Projected Period of Performance End Date:** August 31, 2023

**Funding Instrument:** Grant

C. **Eligibility Information**

1. **Eligible Applicants**
The State Administrative Agency (SAA) is the only entity eligible to submit HSGP
applications to DHS/FEMA, including those applications submitted on behalf of UASI and
OPSG applicants. All 56 states and territories, including any state of the United States, the
District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam,
American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to
apply for SHSP funds. Tribal governments may not apply directly for HSGP funding;
however, funding may be available to tribes under the SHSP and OPSG through the SAA.

2. **Eligibility Criteria**
Eligible high-risk urban areas for the FY 2020 UASI program have been determined through
an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States. Subawards will be made by the SAAs to the designated high-risk urban areas.

In FY 2020, OPSG eligible subrecipients are local units of government at the county level or equivalent level of government and Federally recognized tribal governments in states bordering Canada or Mexico and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.

In FY 2020, OPSG subrecipients eligible to apply for and receive a subaward directly from the SAAs are divided into three Tiers. Tier 1 entities are local units of government at the county level or equivalent and Federally recognized tribal governments that are on a physical border in states bordering Canada, states bordering Mexico, and states and territories with international water borders. Tier 2 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 1 county. Tier 3 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 2 eligible subrecipient. The tier structure is only applicable with regard to eligibility. OPSG funding allocations are based on the assessed border security risks as determined by the USBP.

3. Other Eligibility Criteria

National Incident Management System (NIMS) Implementation
Prior to allocation of any Federal preparedness awards in FY 2020, recipients must ensure and maintain adoption and implementation of NIMS. Detailed information on NIMS requirements are in the Preparedness Grants Manual.

Emergency Management Assistance Compact (EMAC) Membership
In support of the Goal, SHSP recipients must belong to, be in, or act as a temporary member of EMAC, except for American Samoa and the Commonwealth of the Northern Mariana Islands, which are not required to belong to EMAC at this time. All assets supported in part or entirely with FY 2020 HSGP funding must be readily deployable and NIMS-typed when possible to support emergency or disaster operations per existing EMAC agreements. In addition, funding may be used for the sustainment of core capabilities that, while they may not be physically deployable, support national response capabilities, such as Geographic/Geospatial Information Systems (GIS), interoperable communications systems, capabilities as defined under the Mitigation Mission Area of the Goal, and fusion centers.

Law Enforcement Terrorism Prevention Activities (LETPA)
Per section 2006 of the Homeland Security Act of 2002, as amended (6 U.S.C. § 607), DHS/FEMA is required to ensure that at least 25 percent of grant funding appropriated for grants awarded under HSGP’s authorizing statute are used for law enforcement terrorism prevention activities. DHS/FEMA meets this requirement, in part, by requiring all recipients allocate at least 25 percent of the combined HSGP funds allocated under SHSP and UASI towards law enforcement terrorism prevention activities, as defined in 6 U.S.C. § 607. The LETPA allocation can be from SHSP, UASI, or both. The 25 percent LETPA allocation may be met by funding projects in any combination of the four national priority areas.
identified above and any other investments. And the 25 percent LETPA allocation is in addition to the 80 percent pass-through requirement to local units of government and tribes, referenced below.

The National Prevention Framework describes those activities that should be executed upon the discovery of intelligence or information regarding an imminent threat to the homeland, to thwart an initial or follow-on terrorist attack and provides guidance to ensure the Nation is prepared to prevent, avoid, or stop a threatened or actual act of terrorism. Activities outlined in the National Prevention Framework are eligible for use as LETPA-focused funds. Also, where capabilities are shared with the protection mission area, the National Protection Framework activities are also eligible. All other terrorism prevention activities proposed for funding under LETPA must be approved by the FEMA Administrator.

4. Cost Share or Match
There is no cost share or match requirement for the FY 2020 HSGP.

D. Application and Submission Information

   1. Key Dates and Times

   a. Application Start Date: February 14, 2020

   b. Application Submission Deadline: April 30, 2020 at 5:00 p.m. ET

All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. DHS/FEMA will not review applications that are received after the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for an applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicant’s control that prevent submission of the application by the deadline, or other exigent or emergency circumstances.

Applicants experiencing technical issues must notify the FEMA Headquarters (HQ) Program Analyst prior to the application deadline. If applicants do not know their FEMA HQ Program Analyst or if there are programmatic questions or concerns, please contact the Centralized Scheduling and Information Desk (CSID) by phone at (800) 368-6498 or by e-mail at askcsid@fema.dhs.gov, Monday through Friday, 9:00 a.m. – 5:00 p.m. ET.

2. **Agreeing to Terms and Conditions of the Award**
   By submitting an application, applicants agree to comply with the requirements of this NOFO and the terms and conditions of the award, should they receive an award.

3. **Address to Request Application Package**
   See the [Preparedness Grants Manual](#) for information on requesting and submitting an application.

4. **Steps Required to Submit an Application, Unique Entity Identifier, and System for Award Management (SAM)**

   To apply for an award under this program, all applicants must:
   a. Apply for, update, or verify their Data Universal Numbering System (DUNS) Number from Dun & Bradstreet (D&B) and Employer ID Number (EIN)
   b. In the application, provide a valid Data Universal Numbering System DUNS number, which is currently the unique entity identifier;
   c. Have an account with login.gov;
   d. Register for, update, or verify their SAM account and ensure the account is active before submitting the application;
   e. Create a Grants.gov account;
   f. Add a profile to a Grants.gov account;
   a. Establish an Authorized Organizational Representative (AOR) in Grants.gov;
   b. Submit an initial application in Grants.gov;
   g. Submit the final application in the Non-Disaster Grants (ND Grants) system and
   h. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by a federal awarding agency.

   Applicants are advised that DHS may not make a federal award until the applicant has complied with all applicable DUNS and SAM requirements. Therefore, an applicant’s SAM registration must be active not only at the time of application, but also during the application review period and when DHS is ready to make a federal award. Further, as noted above, an applicant’s or recipient’s SAM registration must remain active for the duration of an active federal award. If an applicant’s SAM registration is expired at the time of application, expires during application review, or expires any other time before award, DHS may determine that the applicant is not
qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant. See the Preparedness Grants Manual for additional information on the steps required to submit an application.

5. Electronic Delivery
DHS/FEMA is participating in the Grants.gov initiative to provide the grant community with a single site to find and apply for grant funding opportunities. DHS/FEMA requires applicants to submit their initial applications online through Grants.gov and to submit final applications through ND Grants.

6. How to Register to Apply through Grants.gov
See the Preparedness Grants Manual for information on requesting and submitting an application.

7. How to Submit an Initial Application to DHS/FEMA via Grants.gov
See the Preparedness Grants Manual for information on requesting and submitting an application.

8. Timely Receipt Requirements and Proof of Timely Submission
As application submission is a two-step process, the applicant with the Authorized Organizational Representative (AOR) role who submitted the application will also receive an acknowledgement of receipt, a tracking number (in this format: GRANTXXXXXXXX) from Grants.gov, and an Agency Tracking Number (in this format: EMX-2020-XX-XXXX) with the successful transmission of the initial application. This notification does not serve as proof of timely submission, as the application is not complete until it is submitted in ND Grants. All applications must be received in ND Grants by 5:00 p.m. ET on April 30, 2020. Proof of timely submission is automatically recorded by ND Grants. An electronic date/time stamp is generated within the system when the application is successfully received by ND Grants. Additionally, the applicant(s) listed as contacts on the application will receive a system-generated email to confirm receipt.

9. Submitting the Final Application in Non-Disaster Grants System (ND Grants)
After submitting the initial application in Grants.gov, eligible applicants will be notified by DHS/FEMA and asked to proceed with submitting their complete application package in ND Grants. Applicants can register early with ND Grants and are encouraged to begin their ND Grants registration at the time of this announcement but no later than seven days before the application deadline. Early registration will allow applicants to have adequate time to start and complete their application.

In ND Grants applicants will be prompted to submit all of the information contained in the following forms. Applicants should review these forms before applying to ensure they have all the information required:
- Standard Form 424A, Budget Information (Non-construction);
- Standard Form 424B, Standard Assurances (Non-construction); and

HSGP Specific Application Instructions

Development of the Investment Justification (SHSP and UASI)
As part of the FY 2020 HSGP application process for SHSP and UASI funds, applicants must develop formal investment justifications (IJs) that address the proposed investments. Failure to fulfill all of the terms contained in this section will be considered by DHS/FEMA in its evaluation of the effectiveness of the IJs in accordance with the Risk Methodology and Effectiveness Review described in the Application Review Information and may result in rejection of proposed investments or reduced funding allocations.

Each IJ must demonstrate how proposed investments:
• Support terrorism preparedness;
• Support closing capability gaps or sustaining capabilities identified in the community’s THIRA/SPR process; and
• Support the overcoming of existing logistical, technological, legal, policy, and other impediments to collaborating, networking, sharing information, cooperating, and fostering a culture of national preparedness with federal, state, tribal, and local governments, as well as other regional, and nonprofit partners in efforts to prevent, prepare for, protect against, and respond to acts of terrorism, to meet its target capabilities, support the national security mission of DHS and other federal agencies, and to otherwise reduce the overall risk to the high-risk urban area, the State, or the Nation.
Each IJ must explain how the proposed investments will support the applicant's efforts to:

- Prevent a threatened or an actual act of terrorism;
- Prepare for all hazards and threats, while explaining the nexus to terrorism preparedness;
- Protect citizens, residents, visitors, and assets against the greatest threats and hazards, relating to acts of terrorism; and/or
- Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of an act of terrorism or other catastrophic incidents.

Development of Investments and Projects (SHSP)

- Applicants must propose at least four and may include up to ten investments.
- Required national priority investment justifications must include the name of the priority in the investment name for easy identification.
- Within each investment in their IJ, applicants must propose at least one project to describe the activities they plan to implement with SHSP funds. There is no limit to the number of projects that may be submitted.
- Of the proposed SHSP-funded investments, one single project, within the required intelligence and information sharing investment, must be in support of a designated fusion center. Recipients must coordinate with the fusion center when developing a fusion center project prior to submission. See additional information on how to develop the fusion center projects below.
- Of the proposed SHSP-funded investments, one project in each of the required Cybersecurity and Soft Targets/Crowded Places investments must be in support of enhancing election security.
- All emergency communications investments must describe how such activities align with their Statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. The investment name must include the words “emergency communications” to easily identify any emergency communications investments.
- All requested funding must be associated with specific projects. For each project, several pieces of information must be provided to submit the project for consideration in the application, including the name of the project, the project description, the name of the subrecipient, if applicable, the recipient type (e.g., state or local), the project location (zip code of the primary location of the project), the primary core capability the project supports, whether the project activities are shareable and deployable, and which priority area (if any) the project is in support of. Projects should describe how the proposed investment supports closing capability gaps or sustaining capabilities identified in the THIRA/SPR process. Failure to fulfill all of the terms contained in this section may be considered in the evaluation of the effectiveness of the IJs in accordance with the Risk Methodology and Effectiveness Review described in the Application Review Information and may result in rejection of proposed investments or reduced funding allocations.
- FEMA encourages states to use any DHS provided assessments, such as those performed
by DHS’s Protective Security Advisors and Cybersecurity Advisors, when developing their investment justifications.

**Priority Investments (SHSP)**
States are encouraged to review the [Strategic Framework for Countering Terrorism and Targeted Violence](#) when developing investments.

**Cybersecurity Investment Justification (5 percent)**
At least one investment must be in support of the state’s cybersecurity efforts. The investment must meet or exceed the FY 2020 national priority percentage for cybersecurity, and will also be subject to DHS/FEMA’s evaluation of the effectiveness of the proposed investments, in order to receive a full allocation of SHSP funds. Cybersecurity investments must support the security and functioning of critical infrastructure and core capabilities as they relate to preventing, preparing for, protecting against, or responding to acts of terrorism. Recipients and subrecipients of FY 2020 HSGP grant awards will be required to complete the 2020 Nationwide Cybersecurity Review (NCSR), enabling agencies to benchmark and measure progress of improving their cybersecurity posture. The CIO, CISO or equivalent for each recipient should complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional should complete the assessment. The NCSR is available at no cost to the user and takes approximately 2-3 hours to complete. The 2020 NCSR will be open from October – December 2020.

- The NCSR is an annual requirement for recipients and subrecipients of HSGP funds. Additionally, FEMA recognizes that some subawards will not be issued until after the NCSR has closed. In such cases, such subrecipients will be required to complete the first available NCSR offered after the subaward has been issued by the pass-through entity.
- Although not required by SLTTs that did not receive HSGP funds, all SLTT agencies with preparedness responsibilities are highly encouraged to participate and complete the NCSR to evaluate their cybersecurity posture. For detailed information and background on the NCSR, please see Information Bulletin 439.

In January 2017, the Department of Homeland Security designated the infrastructure used to administer the Nation’s elections as critical infrastructure. This designation recognizes that the United States’ election infrastructure is of such vital importance to the American way of life that its incapacitation or destruction would have a devastating effect on the country. Securing election infrastructure and ensuring an election free from foreign interference are national security priorities. Threats to election systems are constantly evolving, so defending these systems requires constant vigilance, innovation, and adaptation.

Given the importance of the Nation’s election infrastructure, and the multiple and evolving threats to that infrastructure, at least one project within this investment must be in support of the state’s efforts to enhance election security. Additional resources and information regarding election security are available through the [Cybersecurity and Infrastructure Security Agency](#).
**Soft Target Investment Justification (5 percent)**

Soft targets and crowded places are increasingly appealing to terrorists and other extremist actors because of their relative accessibility and the large number of potential targets. This challenge is complicated by the prevalent use of simple tactics and less sophisticated attacks. Segments of our society are inherently open to the general public, and by nature of their purpose do not incorporate strict security measures. Given the increased emphasis by terrorists and other extremist actors to leverage less sophisticated methods to inflict harm in public areas, it is vital that the public and private sectors collaborate to enhance security of locations such as transportation centers, parks, restaurants, shopping centers, special event venues, and similar facilities.

Given the increased risk to soft targets and crowded places, at least one investment must be in support of the state’s efforts to protect soft targets/crowded places. Additionally, the proposed investment must meet or exceed the FY 2020 national priority percentage for soft targets/crowded places and will also be subject to DHS/FEMA’s evaluation of the effectiveness of the proposed investments in order to receive a full allocation of SHSP funds. Additional resources and information regarding securing soft targets and crowded places are available through the [Cybersecurity and Infrastructure Security Agency](https://www.cisa.gov). States are encouraged to engaged DHS’ Protective Security Advisors’ security assessments of soft targets to ensure that recommendations from those assessments are taken into consideration when allocating grant funding.

As noted above, given the importance of the Nation’s election infrastructure, and the multiple and evolving threats to that infrastructure, at least one project within this investment must be in support of the state’s efforts to enhance election security. Additional resources and information regarding election security are available through the [Cybersecurity and Infrastructure Security Agency](https://www.cisa.gov).

**Information Sharing and Cooperation Investment Justification (5 percent)**

Effective homeland security operations rely on timely information sharing and actionable intelligence to accurately assess and prevent threats against the United States. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. A critical and statutorily charged mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including counterterrorism, cybersecurity, border security, immigration enforcement, and other areas is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism.

Given the importance of information sharing and collaboration to effective homeland security solutions, at least one investment must be in support of the state’s efforts to enhance information sharing and cooperation with DHS and other federal agencies. As noted above, this requirement must include at least one dedicated fusion center project. Additional instructions on development of the fusion center project can be found below. Applicants must justify persuasively how they
will contribute to the information sharing and collaboration purposes of the investment and a culture of national preparedness, including how they will identify, address, and overcome any existing laws, policies, and practices that prevent information sharing. Additionally, the proposed investment must meet or exceed the FY 2020 national priority percentage for information sharing and cooperation with DHS, and will also be subject to DHS/FEMA’s evaluation of the effectiveness of the proposed investments, in order to receive a full allocation of SHSP funds. Additional resources and information regarding collaboration and information sharing are available through the Department’s Office of Intelligence and Analysis.

Emerging Threats Investment Justification (5 percent)
The spread of rapidly evolving and innovative technology, equipment, techniques, and knowledge presents new and emerging dangers for homeland security in the years ahead. Terrorists remain intent on acquiring weapons of mass destruction (WMD) capabilities, and rogue nations and non-state actors are aggressively working to develop, acquire, and modernize WMDs that they could use against the Homeland. Meanwhile, biological and chemical materials and technologies with dual use capabilities are more accessible throughout the global market. Due to the proliferation of such information and technologies, rogue nations and no-state actors have more opportunities to develop, acquire, and use WMDs than ever before. Similarly, the proliferation of unmanned aircraft systems, artificial intelligence, and biotechnology increase opportunities of threat actors to acquire and use these capabilities against the United States and its interests.

Given the increased risk of emerging threats, at least one investment must be in support of the state’s efforts to address emerging threats. Additionally, the proposed investment must meet or exceed the FY 2020 national priority percentage for emerging threats, and will also be subject to DHS/FEMA’s evaluation of the effectiveness of the proposed investments, in order to receive a full allocation of SHSP funds. Additional resources and information regarding emerging threats are available through the Countering Weapons of Mass Destruction Office and the Cybersecurity and Infrastructure Security Agency.

Development of Investments and Projects (UASI)
- Applicants must propose at least four and may include up to ten investments.
- Within each investment in their IJ, Urban Areas must propose at least one project to describe the activities they are planning to implement with UASI funds. There is no limit to the number of projects that may be submitted.
- Required national priority IJs must include the name of the priority in the investment name for easy identification.
- Of the proposed projects, Urban Areas are required to propose one single project, as part of the required intelligence and information sharing investment justification, in support of a designated fusion center within the Urban Area, if applicable. Recipients must coordinate with the fusion center when developing a fusion center project prior to submission. See additional information on how to develop fusion center investments below.
- Of the proposed UASI-funded investments, one project in each of the required Cybersecurity and Soft Targets/Crowded Places investments, must be in support of enhancing election security.
All emergency communications investments must describe how such activities align with their Statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governance Body (SIGf) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. The investment name must include the words “emergency communications” to easily identify any emergency communications investments.

All requested funding must be associated with specific projects. For each project, several pieces of information must be provided to submit the project for consideration in the application, including the name of the project, the project description, the name of the subrecipient, if applicable, the recipient type (e.g., state or local), the project location (zip code of the primary location of the project), the primary core capability the project supports, whether the project activities are shareable and deployable, and which priority area (if any) the project is in support of. Projects should describe how the proposed investment supports closing capability gaps or sustaining capabilities identified in the THIRA/SPRprocess.

Priority Investments - UASI
High-risk urban areas are encouraged to review the Strategic Framework for Countering Terrorism and Targeted Violence when developing investments.

Cybersecurity Investment Justification (5 percent)
At least one investment must be in support of the urban area’s cybersecurity efforts. Development of Fusion Center Projects (SHSP and UASI)
If applicable, each applicant must identify a fusion center project that will:

- Indicate alignment to a designated Fusion Center.
- Provide both a brief narrative description and funding itemization for the proposed project activities that directly support the designated fusion center.
- The descriptive narrative and the financial itemization should align improvement or sustainment requests with fusion center activities as they relate to the Fusion Center Performance Measures found in the Preparedness Grants Manual.
• If the project description and funding itemization do not directly support the fusion center or clearly align to the Fusion Center Performance Measures, then the project may be conditionally approved until a Fusion Center Addendum is submitted.

**Sample Fusion Center Funding Itemization**

A sample project description and funding itemization are below. For the itemized projects, clearly identify the anticipated fusion center performance improvement or sustainment as a result of the proposed funding.

*The X Fusion enhancement project will fund:*
- Salaries, benefits, and training for X number of Fusion Center intelligence analysts
- Travel costs associated with fusion center analyst training.
- This project will directly sustain the Center’s current capabilities and performance and directly aligns with performance measures 2020.XXX.
- We anticipate seeing an improvement in the quality and quantity of analytic production and responses to requests for information as a direct result of the funding of this project.

The funding itemization for a fusion center project should include the amount and percent of each relevant solution area. As an example:

**Completing IJs in the Grant Reporting Tool (GRT) (SHSP and UASI)**

In the Related Documents section of the Grants.gov posting, applicants can find the IJ template and instructions for collecting the required information for investments and projects. Additionally, applicants should utilize the Project Worksheet located in Grants.gov posting to assemble the information required for each project, which will facilitate the input of that information into the GRT.

**Development of Concept of Operations for OPSG**

As part of the FY 2020 OPSG application process, each eligible local unit of government at the county or Federally recognized tribal government level must develop a strategic plan called a Concept of Operations (CONOP)/Application, which is a formal proposal of action to address a specific situation and forms the basis for Operations Orders, in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. CONOPs that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the CONOP/Application should describe participating agencies in the Executive Summary. CONOP/Application details should include the names of the agencies, points of contact, and individual funding requests. All CONOPs/Applications must be developed in collaboration with
the local USBP sector office, the SAA and the local unit of government. Requests for funding in CONOPs/Applications must be based on risks and the operational enforcement support requirements of its corresponding USBP Sector, as well as the national priorities identified below. USBP Sector offices will forward the CONOPs to USBP Headquarters for vetting and coordination. Applicants will forward corresponding OPSG Applications to the SAA for submission to FEMA. USBP Headquarters will reconcile all submitted CONOPs with the OPSG Applications. FEMA will review and evaluate all CONOPs and OPSG Applications and funding will be allocated based on the review and selection criteria identified in this NOFO.

**OPSG Applicants will be required to clearly articulate and identify how the CONOPs will address the national priorities identified below.**

**Information Sharing and Cooperation**

Effective border security operations rely on timely information sharing and actionable intelligence to accurately assess and prevent threats against the United States. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. A critical and statutorily charged mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including counterterrorism, cybersecurity, border security, immigration enforcement, and other areas is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism.

Given the importance of information sharing and collaboration to effective homeland security solutions, the CONOP must be in support of the recipient’s efforts to enhance information sharing and cooperation with DHS and other federal agencies. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the OPSG program and a culture of national preparedness, including how they will identify, address, and overcome any existing laws, policies, and practices that prevent information sharing. Additional resources and information regarding collaboration and information sharing are available through the Department’s [Office of Intelligence and Analysis](#).

Given the increased risk of emerging threats, the CONOP must be in support of the recipient’s efforts to address emerging threats. Additional resources and information regarding emerging threats are available through the Countering Weapons of Mass Destruction Office and the Cybersecurity and Infrastructure Security Agency.

11. Intergovernmental Review

12. Funding Restrictions
Federal funds made available through this award may be used for the purpose set forth in this award and must be consistent with the statutory authority for the award. Award funds may not be used for matching funds for any other Federal awards, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal Government or any other government entity. See the Preparedness Grants Manual for more information on funding restrictions.

13. Environmental Planning and Historic Preservation (EHP) Compliance
See the Preparedness Grants Manual for information on EHP Compliance.

14. Emergency Communications Investments
If an entity uses HSGP funding to support emergency communications investments, the following requirements shall apply to all such grant-funded communications investments in support of the emergency communications priorities and recognized best practices:

- Applicants must describe in the investment how proposed communications investments align to needs identified in their SCIP. Effective project alignment will require advance coordination with the SWIC and consultation with governing bodies such as the SIGB or Statewide Interoperability Executive Committee (SIEC), as they serve as the primary steering group for the statewide interoperability strategy. Additionally, recipients should consult subject matter experts serving on governance bodies, such as broadband experts, chief information officers, representatives from utilities, or legal and financial experts, when developing proposals.
- The signatory authority for the SAA must certify in writing to DHS/FEMA their compliance with the SAFECOM Guidance. The certification letter should be coordinated with the SWIC for each state and must be uploaded to ND Grants at the time of the first Program Performance Report (PPR) submission.
- All states and territories must designate a full-time SWIC who has the authority and resources to actively improve interoperability with emergency management and response agencies across all levels of government, to include establishing statewide plans, policies, and procedures, and coordinating decisions on communications investments funded through Federal grants. Note that the designated full-time SWIC may also be the state’s or territory’s cybersecurity point of contact. SWIC status information will be maintained by the DHS Office of Emergency Communications and will be verified by FEMA GPD through programmatic monitoring activities.
- By the period of performance end date, all states and territories must update the SCIP, with a focus on communications resilience/continuity, to include assessment and
mitigation of all potential risks identified in the SCIP: natural disasters, accidental
damage (human failures), intentional damage (sabotage, terrorism), cybersecurity, etc.
Following the initial update, the SCIP should be updated on an annual basis. SCIP
status information will be maintained by the DHS Office of Emergency
Communications and will be verified by FEMA GPD through programmatic
monitoring activities.

All states and territories must test their emergency communications capabilities and procedures
(as outlined in their operational communications plans) in conjunction with regularly planned
exercises (separate/addition emergency communications exercises are not required) and must
submit an After Action Report/Improvement Plan (AAR/IP) to the Homeland Security Exercise
and Evaluation Program’s (HSEEP) electronic message inbox at hseep@fema.gov within 90
days of exercise completion. Exercises should be used to both demonstrate and validate skills
learned in training and to identify gaps in capabilities. Resilience and continuity of
communications should be tested during training and exercises to the greatest extent possible.
Further, exercises should include participants from multiple jurisdictions, disciplines, and levels
of government and include emergency management, emergency medical services, law
enforcement, interoperability coordinators, public health officials, hospital officials, officials
from colleges and universities, and other disciplines and private sector entities, as appropriate.
Findings from exercises should be used to update programs to address gaps in emergency
communications as well as emerging technologies, policies, and partners. Recipients are
encouraged to increase awareness and availability of emergency communications exercise
opportunities across all levels of government.

States, territories, and other eligible grant recipients are advised that HSGP funding may be used
to support communications planning (including the cost of hiring a SWIC, participation in
governance bodies and requirements delineated above), training, exercises, and equipment costs.
Costs for transitioning to the FirstNet network may also be eligible. More information regarding
FirstNet can be found in the Preparedness Grants Manual.

15. Detailed Budget
Applicants must provide budget summary worksheets for all funds requested at the time of
application. The budget summary worksheets must be complete, reasonable, and cost-effective
in relation to the proposed project and should provide the basis of computation of all project-
related costs (including management and administrative costs) and any appropriate narrative.
FEMA must be able to thoroughly evaluate the projects being submitted based on the
information provided. FEMA must be able to determine how much funding is being used by the
direct recipient for projects carried out by the direct recipient and how much funding is being
passed through to sub-recipients for each sub-program (UASI, SHSP, OPSG). Consequently,
applicants must provide an appropriate level of detail within the budget summary worksheets to
clarify what will be purchased and spent. Sample budget summary worksheets are available on
the grants.gov posting for the HSGP in the Related Documents tab and may be used as a guide
to assist applicants in the preparation of budgets and budget narratives.

16. Funds Transfer Restriction
The recipient is prohibited from transferring funds between programs (includes the SHSP, the
UASI, and OPSG). Recipients can submit an investment/project where funds come from
multiple funding sources (e.g., the SHSP and UASI), however, recipients are not allowed to
divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA.

17. Pre-Award Costs
Pre-award costs are allowable only with the prior written approval of DHS/FEMA and as included in the award agreement. To request pre-award costs, a written request must be included with the application, signed by the Authorized Representative of the entity. The letter must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval.

18. Cost Principles
Costs charged to this award must be consistent with the Cost Principles for Federal Awards located at 2 C.F.R. Part 200, Subpart E. For more information on 2 C.F.R. Part 200, please refer to FEMA GPD Information Bulletin 400, *FEMA's Implementation of 2 C.F.R. Part 200, the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Super Circular” or “Omni Circular”).

19. Direct Costs

Planning costs are allowed under this program.

b. Organization
Organization costs are allowed under this program.

c. Equipment
Equipment costs are allowed under this program.

d. Training
Training costs are allowed under this program.

e. Exercises
Exercise costs are allowed under this program.

f. Personnel
Personnel hiring, overtime, and backfill expenses are permitted under this grant to perform allowable HSGP planning, organization, training, exercise, and equipment activities. Under OPSG, overtime costs are allowable only in so far as they meet the intent of the program. All recipients and subrecipients of HSGP funds, including SHSP, UASI, and OPSG allocations, may not use more than 50 percent of their awards to pay for personnel activities unless a waiver is approved by FEMA. For more information on the 50 percent personnel cap, please see FEMA Information Bulletin (IB) 421, Clarification on the *Personnel Reimbursement for Intelligence Cooperation and Enhancement of Homeland Security Act of 2008* (Public Law 110-412) – the PRICE Act.

g. Operational Overtime
Operational overtime costs are allowed under this program. Prior to use of funds for operational overtime, recipients must receive approval from DHS/FEMA.
h. Travel
Domestic travel costs are allowed under this program, as provided for in this NOFO. International travel is not an allowable cost under this program unless approved in advance by DHS/FEMA.

i. Construction and Renovation
Construction and renovation costs to achieve capability targets related to preventing, preparing for, protecting against, or responding to acts of terrorism are allowed under this program. For construction and renovation costs to be allowed, they must be specifically approved by DHS/FEMA in writing prior to the use of any program funds. Applicants must use the EHP approval process. Limits on the total amount of grant funding that may be used for construction or renovation may apply. Additionally, recipients are required to submit Standard Form 424C.

j. Maintenance and Sustainment
Maintenance- and sustainment-related costs, such as maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees, are allowable as described in FP 205-402-125-1, Maintenance Contracts and Warranty Coverage Funded by Preparedness Grants Policy (http://www.fema.gov/media-library/assets/documents/32474).

k. Management and Administration (M&A) Costs
Management and administration (M&A) activities are those directly relating to the management and administration of HSGP funds, such as financial management and monitoring. A maximum of up to five percent of HSGP funds awarded may be retained by the state, and any funds retained are to be used solely for M&A purposes associated with the HSGP award. Subrecipients may also retain a maximum of up to five percent of the funding passed through by the state solely for M&A purposes associated with the HSGP award.

Recipients or subrecipients may apply or credit M&A funding toward the recipient’s requirement to allocate funding toward the four national priority areas. For example, if a recipient spends $5,000 to manage or administer its funding dedicated toward its enhancing cybersecurity investment, the recipient may credit that funding toward its requirement to allocate at least 5 percent of its award to enhancing cybersecurity.

A state’s HSGP funds for M&A calculation purposes includes the total of its SHSP, UASI, and OPSG awards. While the SAA may retain up to five percent of this total for M&A, the state must still ensure that all subrecipient award amounts meet the mandatory minimum pass-through requirements that are applicable to each HSGP program. To meet this requirement, the percentage of SHSP and UASI funds passed through to local or tribal jurisdictions must be based on the state’s total HSGP award prior to withholding any M&A.

In retaining these funds, states may retain a maximum of 2.5 percent of the OPSG allocation, which must be withheld from the pass-through to each subrecipient county or tribe in an equal percentage. The SAA may also retain additional funding from its SHSP award to manage and administer the OPSG award, but that additional amount is also capped at an amount equal to 2.5 percent of the OPSG award. Examples applying this principle:
SAA 1:
SHSP: $1,000,000
OPSG: $2,500,000
UASI: $2,500,000
M&A Maximum: $300,000 (5 percent of $6,000,000)
   Maximum M&A for SHSP = $50,000
   Maximum M&A for OPSG = $125,000. Of that amount, $62,500 (2.5 percent) may be
   retained from the OPSG allocation, and the other $62,500 would come from the SHSP
   allocation. Any amount used to manage and administer OPSG that is charged to SHSP
   may be above and beyond the $50,000 available to manage the SHSP allocation.

SAA 2:
SHSP: $3,500,000
OPSG: $1,000,000
M&A Maximum: $225,000 (5 percent of $4,500,000)
   Maximum M&A for SHSP = $175,000
   Maximum M&A for OPSG = $50,000. Of that amount, $25,000 (2.5 percent) may be
   retained from the OPSG allocation, and the other $25,000 would come from the SHSP
   allocation. Any amount used to manage and administer OPSG that is charged to SHSP
   may be above and beyond the $175,000 available to manage the SHSP allocation.

Please note, Information Bulletin (IB) 365: Management and Administration Costs in the
Homeland Security and DHS/FEMA Policy 207-087-1, which can be found at
http://www.fema.gov/library/viewRecord.do?id=7837, do not apply to awards made in FY
2020 under this NOFO. The IB and Policy remain in effect for all previous awards.

L. Critical Emergency Supplies
Critical emergency supplies are allowed under this program.

M. Secure Identification
Secure Identification costs are allowed under this program.

N. Indirect (Facilities & Administrative [F&A]) Costs
Indirect costs are allowable under this program as described in 2 C.F.R. Part 200, including 2
C.F.R. § 200.414. Applicants with a negotiated indirect cost rate agreement that desire to
charge indirect costs to an award must provide a copy of their negotiated indirect cost rate
agreement at the time of application. Applicants that are not required by 2 C.F.R. Part 200 to
have a negotiated indirect cost rate agreement but are required by 2 C.F.R. Part 200 to
develop an indirect cost rate proposal must provide a copy of their proposal at the time of
application. Post-award requests to charge indirect costs will be considered on a case-by-case
basis and based upon the submission of an agreement or proposal as discussed above.

O. General Purpose Equipment
HSGP allows expenditures on general purpose equipment if it aligns to and supports one or
more core capabilities identified in the Goal and has a nexus to terrorism preparedness. General
purpose equipment, like all equipment funded under the HSGP, must be sharable through the
Emergency Management Assistance Compact (EMAC)\(^3\) and allowable under 6 U.S.C. § 609, and any other applicable provision of the Homeland Security Act of 2002, as amended. Examples of such general-purpose equipment may include:

- Law enforcement vehicles;
- Emergency medical services (EMS) equipment and vehicles;
- Fire service equipment and vehicles, to include hose, pump accessories, and foam concentrate for specialized chemical, biological, radiological, nuclear, and explosives (CBRNE) response;
- Interoperability of data systems, such as computer aided dispatch (CAD) and record management systems (RMS); and
- Office equipment for staff\(^4\) engaged in homeland security program activity.

Equipment allowability is based on the Authorized Equipment List (AEL) but exceptions may be considered on a case-by-case basis if (1) the equipment identified to be purchased directly maps to a core capability contained within the Goal, and (2) the equipment’s purpose (when operational) falls under the permitted use of funds in accordance with 6 U.S.C. § 609, and any other applicable provision of the Homeland Security Act of 2002, as amended.

P. Allowable Cost Matrix

The following matrix provides allowable cost activities that fall under each of the cost categories noted above. Recipients and subrecipients must follow all applicable requirements in 2 C.F.R. Part 200 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards). Funds under HSGP may be used to cover the costs for evaluating the impact of these grants on the state or urban area’s core capabilities and capability gaps. This list is not exhaustive, therefore, if there are any questions regarding allowable costs, please contact the appropriate HQ GPD Program Analyst. For additional information on allowable costs, see the Preparedness Grants Manual.

### E. Application Review Information

#### 1. Application Evaluation Criteria

##### a. Programmatic Criteria

**Allocations**

**Risk Methodology and Effectiveness Review**

The risk methodology and effectiveness review first determine the relative risk of terrorism faced by a given area considering the potential risk of terrorism to people, critical infrastructure, and economic security. The analysis includes, but is not limited to, threats from violent domestic extremists, international terrorist groups, and individuals inspired by terrorists abroad. See the [Preparedness Grants Manual](#) and Application Evaluation Criteria for additional information on risk methodology and effectiveness review.

The second part of the risk methodology and effectiveness review determines whether the proposed project is clear, logical, and reasonable to address the priority area of interest and contribute to a culture of national preparedness. This part considers factors such as how well the project is described and how well the project addresses the objectives and strategies of the priority area.

Risk and effectiveness will be given equal consideration in determining final award amounts.

**NOTE:** The THIRA/SPR process is separate from the risk methodology and effectiveness review, and its results do not affect grant allocations.

**Evaluation Criteria**

FEMA will evaluate the FY 2020 HSGP applications for completeness, adherence to programmatic guidelines, and anticipated effectiveness of the proposed investments. FEMA’s review will include verification that each JJ or project:

- Meets the national priority required spend percentages.
- Aligns with at least one core capability identified in the Goal;
- Demonstrates how investments support closing capability gaps or sustaining capabilities identified in the THIRA/SPR process; and
- Supports a NIMS-typed resource and whether those assets are deployable/shareable to support emergency or disaster operations per existing EMAC agreements.
In addition to the above, FEMA will determine whether the proposed approach is clear, logical, and reasonable to address the priority areas of interest and contribute to a culture of national preparedness. This part considers factors such as the objectives and strategies proposed to address the priority area, how the objectives and strategies overcome legal, political, or practical obstacles to reduce overall risk, the process and criteria to select additional relevant projects, and the approach to monitor awards to satisfy the funding percentage allocations. Effectiveness will be evaluated prior to award and may impact the final overall award amount. To that end, IJs should include:

- How the proposed investment addresses the national priority;
- An explanation of how the proposed projects were selected and will achieve objectives and strategies to build or sustain the core capability gaps identified in the SPR, including expected long-term impact where applicable;
- A summary of laws, policies and practices that can be enhanced, eliminated, or otherwise changed in order to achieve the goals of the project and foster a culture of national preparedness;
- A summary of the collaboration efforts to prevent, prepare for, protect against, and respond to acts of terrorism as well as anticipated outcomes of the project.

For FY 2020 HSGP applications, effectiveness will be evaluated based on the following five factors:

- **Investment Strategy (30%)**: Proposals will be evaluated based on the quality and extent to which applicants describe an effective strategy that demonstrates that proposed projects support the program objective of preventing, preparing for, protecting against, and responding to acts of terrorism, to meet its target capabilities, and otherwise reduce the overall risk to the high-risk urban area, the State, or the Nation.

- **Budget (10%)**: Proposals will be evaluated based on the extent to which applicants describe a budget plan for each investment demonstrating how the applicant will maximize cost effectiveness of grant expenditures.

- **Impact/Outcomes (30%)**: Proposals will be evaluated on how this investment helps the jurisdiction close capability gaps identified in its Stakeholder Preparedness Review and addresses national priorities outlined in the FY 2020 NOFO. Further, proposals will be evaluated on their identification and estimated improvement of core capability(ies), the associated standardized target(s) that align with their proposed investment, and the ways in which the applicant will measure and/or evaluate improvement.

- **Collaboration (30%)**: Proposals will be evaluated based on the degree to which the proposal adequately details how the recipient will use investments and other means to overcome existing logistical, technological, legal, policy, and other impediments to collaborating, networking, sharing information, cooperating, and fostering a culture of national preparedness with federal, state, tribal, and local governments, as well as other regional and nonprofit partners in efforts to prevent, prepare for, protect against, and respond to acts of terrorism, to meet its target capabilities, support the national security mission of DHS and other federal agencies, and to otherwise reduce the overall risk to the high-risk urban area, the State, or the Nation. In evaluating applicants under this factor FEMA will consider the information provided by the applicant and may also consider relevant information from other sources.

- **Past Performance (additional consideration)**: Proposals will be evaluated based on the
applicants demonstrated capability to execute the proposed investments. In evaluating applicants under this factor FEMA will consider the information provided by the applicant and may also consider relevant information from other sources.

Recipients are expected to conform, as applicable, with accepted engineering practices, established codes, standards, modeling techniques, and best practices, and participate in the development of case studies demonstrating the effective use of grant funds, as requested.

**Review and Selection Process (SHSP and UASI)**
To ensure the effectiveness of proposed investments and projects, all applications will undergo a Federal review as described herein. The Federal review will be conducted by DHS and FEMA. IJs will be reviewed at both the investment and project level. Results of the effectiveness analysis may result in a recipient receiving a reduced grant award.

Cybersecurity investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Soft Targets/Crowded Places investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Information Sharing and Cooperation Investments will be reviewed by DHS/FEMA, DHS Intelligence and Analysis, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

As part of the above, Fusion center projects will be reviewed by DHS/FEMA for compliance with HSGP NOFO requirements to prioritize the alignment of requests with results from the annual Fusion Center Assessment Program. If a fusion center investment does not meet the requirements, a Fusion Center Addendum must be completed and submitted for review and approval prior to expending funds allocated to fusion center activities.

Emerging threats investments will be reviewed by DHS/FEMA, DHS Countering Weapons of Mass Destruction Office, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

All other proposed investments not associated with a required investment justification will undergo a Federal review by DHS/FEMA to verify compliance with all administrative and eligibility criteria identified in the NOFO.

**Review and Selection Process (OPSG)**
Applications will be reviewed by the SAA and USBP for completeness and adherence to programmatic guidelines and evaluated for anticipated feasibility, need, and impact of the
Operations Orders. For more information on Operations Orders and other requirements of
OPSG, see the Preparedness Grants Manual.

DHS/FEMA will verify compliance with all administrative and eligibility criteria identified in
the NOFO and required submission of Operations Orders and Inventory of Operations Orders by
the established due dates. DHS/FEMA and USBP will use the results of both the risk analysis
and the Federal review by DHS/FEMA to make recommendations for funding to the Secretary of
Homeland Security.

FY 2020 OPSG funds will be allocated competitively based on risk-based prioritization using
the OPSG Risk Assessment described above. Final funding allocations are determined by the
Secretary, who may consider information and input from various law enforcement offices or
subject-matter experts within the Department. Factors considered include, but are not limited to,
threat, vulnerability, miles of the border, and other border-specific law enforcement intelligence,
as well as the feasibility of FY 2020 Operations Orders to designated localities within border
states and territories.

b. Financial Integrity Criteria
Prior to making a Federal award, DHS/FEMA is required by 31 U.S.C. § 3321 note, 41
U.S.C. § 2313, and 2 C.F.R. § 200.205 to review information available through any OMB-
designated repositories of government-wide eligibility qualification or financial integrity
information. Application evaluation criteria may include the following risk-based
considerations of the applicant:
- Financial stability;
- Quality of management systems and ability to meet management standards;
- History of performance in managing Federal awards;
- Reports and findings from audits; and
- Ability to effectively implement statutory, regulatory, or other requirements.

c. Supplemental Financial Integrity Review
Prior to making a Federal award where the anticipated Federal share of a Federal award will be
greater than the simplified acquisition threshold, currently $250,000 (see Section 805 of the
18.pdf; see also FEMA GPD Information Bulletin No. 434, Increases and Changes to the Micro-
Purchase and Simplified Acquisition Thresholds):
- DHS/FEMA is required to review and consider any information about the applicant in the
designated integrity and performance system accessible through the System for Award
Management (SAM), which is currently the Federal Awardee Performance and Integrity
Information System (FAPIIS) and is also accessible through the SAM website.
- An applicant, at its option, may review information in FAPIIS and comment on any
information about itself that a Federal awarding agency previously entered.
- DHS/FEMA will consider any comments by the applicant, in addition to the other
information in FAPIIS, in making a judgment about the applicant’s integrity, business
ethics, and record of performance under Federal awards when completing the review of
risk posed by applicants, as described in 2 C.F.R. § 200.205.
F. Federal Award Administration Information

1. Notice of Award
   See the Preparedness Grants Manual for information on Notice of Award.

2. SHSP and UASI Pass-Through Requirements
   Awards made to the SAA for HSGP carry additional pass-through requirements. Pass-through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. Four requirements must be met to pass-through grant funds:
   - The SAA must make a firm written commitment to passing through grant funds to subrecipients;
   - The SAA’s commitment must be unconditional (i.e., no contingencies for the availability of SAA funds);
   - There must be documentary evidence (i.e., award document, terms, and conditions) of the commitment; and
   - The award terms must be communicated to the subrecipient.

Timing and Amount
The SAA must pass-through at least 80 percent of the funds awarded under the SHSP and UASI to local or tribal units of government within 45 calendar days of receipt of the funds. "Receipt of the funds" occurs either when the SAA accepts the award or 15 calendar days after the SAA receives notice of the award, whichever is earlier.

SAAs are sent notification of HSGP awards via the GPD’s ND Grants system. If an SAA accepts its award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45-calendar days pass-through period will start on the date the SAA accepted the award. Should an SAA not accept the HSGP award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45-calendar days pass-through period will begin 15 calendar days after the award notification is sent to the SAA via the ND Grants system.

It is important to note that the PoP start date does not directly affect the start of the 45-calendar days pass-through period. For example, an SAA may receive notice of the HSGP award on August 20, 2020, while the PoP dates for that award are September 1, 2020, through August 31, 2022. In this example, the 45-day pass-through period will begin on the date the SAA accepts the HSGP award or September 4, 2020 (15 calendar days after the SAA was notified of the award), whichever date occurs first. The PoP start date of September 1, 2020 would not affect the timing of meeting the 45-calendar day pass-through requirement.

Other SHSP and UASI Pass-Through Requirements
The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass-through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands. The Commonwealth of Puerto Rico is required to comply with the pass-through requirement, and its SAA must also obligate at least 80 percent of the funds to local units of government within 45 calendar days of receipt of the funds.
Under SHSP, the SAA may retain more than 20 percent of funding for expenditures made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. States shall review their written consent agreements yearly and ensure that they are still valid. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2020, unless the written consent review indicates the local government is no longer in agreement. If modifications to the existing agreement are necessary, the SAA should contact their assigned FEMA HQ Program Analyst.

**Additional OPSG Requirements**
