Happy sunny summer days! As we continue on our path to ending the COVID-19 Pandemic, I want to remind you that this is not yet over. The statistics show that the numbers of positive cases are on the rise in our black and brown communities and there is a direct correlation to vaccination rates. 99% of all new cases are of unvaccinated people. I encourage you all to protect yourself, your family, friends, and children that are unable to be vaccinated by getting your shot today. Vaccination is free and your immigration status is not a factor in eligibility. I implore you to please do all that you can to stay safe!

Did you celebrate CROWN day? July 3rd, 2021 marked the two-year anniversary of the signing of the CROWN Act (Create a Respectful and Open World for Natural Hair.) The CROWN act, which went into effect on January 1, 2020, expands the definition of race in the Fair Employment and Housing Act (FEHA) and Education Code “to ensure legal protection against race-based hair discrimination in workplaces and in K-12 public and charter schools.” Governor Gavin Newsom signed the bill into law making California the first state to ban hair discrimination of protective hairstyles and hair textures associated with race. Since then 12 more states and 29 municipalities have followed suit by enacting the CROWN Act or laws inspired by the act. We are protected in California, but many states are still fighting for this right. So please continue to call on federal legislators to pass the CROWN Act in Congress.
99.5% of COVID-19 deaths in the US are now in unvaccinated people, CDC head says

Almost all recent COVID-19 deaths in the US were among unvaccinated people, according to preliminary data from the Centers for Disease Control and Prevention.

People who have not been vaccinated "remain susceptible, especially from the transmissible Delta variant, and are particularly at risk for severe illness and death," Dr. Rochelle Walensky, the director of the CDC, told a press briefing on Thursday. "Preliminary data from several states over the last few months suggest that 99.5% of deaths from COVID-19 in the United States were in unvaccinated people," Walensky said. Walensky did not give a specific time frame for the data.

The estimate is in line with findings from a June analysis from the Associated Press, which found that only 0.8% of people who died from COVID-19 in the US in May were vaccinated.

Walensky’s comments come as the highly transmissible Delta variant is spreading across the country. Estimates published this week from the CDC indicate that the variant makes up more than half of the cases in the US. "Although we expected the Delta variant to become the dominant strain in the US, this rapid rise is troubling," Walensky said, adding that the variant was surging in pockets of the country with low vaccination rates.

Nationwide, hospitalization and deaths remain far lower than the numbers seen in January, something Walensky credited to a successful vaccination campaign. But cases and hospitalization are rising in US counties where vaccination rates are low, she said. Walensky said 173 counties had case rates above 100 per 100,000 people. That’s about three times the national average of about 32 cases per 100,000, according to CDC data. Nine in 10 of those 173 counties had vaccinated fewer than 40% of their residents, she said.

On Tuesday, President Joe Biden proposed changes to the US vaccination campaign, including suggesting a door-to-door vaccination effort.

Walensky also said on Thursday that the authorized vaccines in the US could prevent severe disease, hospitalization, and death from the Delta variant. Data indicates that two doses of the Pfizer-BioNTech, Moderna, or Oxford-AstraZeneca COVID-19 vaccines are highly protective against Delta. Read the full article at BusinessInsider.com
Councilmember Dionne Faulk Tours Beckman YOLA Center

Councilmember Faulk is excited to share pictures from her recent tour of the near-finished Beckman YOLA Center in downtown Inglewood. The City of Inglewood is proud to host a state-of-the-art, stunning and educational building in the community for our youth.

Stay tuned for details on the grand opening on August 15th.

Photo shared by Commissioner Cheryl Shaw Williams (pictured) with YOLA Docents/Graduates
This month I stopped by We Cupcake for the first time and was AMAZED by how good their cupcakes are and I’m thrilled to share this District 4 gem with the community. I’m telling you this was a special treat!!

For over 5 years, Owner, Denise Harris has baked 15 different cupcake flavors every day. So when you come into her store, your options are all freshly made. Yes, We Cupcake sells traditional cupcakes, but, they also bake and design creative custom cakes to order. Did I mention they specialize in alcohol-infused cupcakes? Their "adult" cupcakes are made to order with the alcohol of your choice. The alcohol is first baked in for flavor then infused in so that you can taste it, and finally infused into the frosting as well.

But wait there's more! We Cupcake also has an array of sweet treats that include: chocolate-dipped and decorated jumbo pretzel sticks and/or strawberries, graham cracker s’mores, cake pops, and shaped and decorated cookies, banana pudding, peach cobbler, and, still, many other treats.

All of your special occasions can be accommodated with your made-to-order, one-of-a-kind design or you may choose from their gallery of fan favorites. Whether it’s a Bridal or Baby Shower, Wedding, Anniversary, Birthday, Quinceañera, Bar/Bat Mitzvah, Graduation, or any other life event you wish to commemorate, make We Cupcake your first choice.

"Happiness is only a cupcake away", so if you're in the mood for a well-deserved splurge or planning for a special event, stop by We Cupcake. You won’t regret it!

Inglewood Awarded a $5+ Million Federal Sound Insulation Grant

July 2, 2021

The Honorable James T. Butts
Mayor
City Hall
City of Inglewood
1 Manchester Boulevard
Inglewood, CA 90301
JBatts@cityofinglewood.org

The Honorable Alex Padilla
Inglewood City Councilman
APadilla@cityofinglewood.org

The Honorable Eloy Morales, Jr.
Inglewood City Councilman
EMorales@cityofinglewood.org

The Honorable George Dotson
Inglewood City Councilman
GDotson@cityofinglewood.org

The Honorable Dionne Faulk
Inglewood City Councilwoman
DFaulk@cityofinglewood.org

Dear Mayor Butts and Councilmembers:

I write to express my sincere and wholehearted congratulations to the City of Inglewood upon your receipt of a federal grant of $5,333,333 from the Federal Aviation Administration (FAA) for residential noise mitigation for residences in the vicinity of LAX. It is gratifying to know that this grant will enable the City of Inglewood to provide residential noise mitigation for an estimated 333 Inglewood residences.

I am pleased to help make these grants available to my district, where I have received numerous complaints year in and year out about airport noise emanating from LAX. I will continue to work to ensure that my constituents who live near LAX can enjoy peace and quiet in their homes.

I look forward to continuing to work with you as your Representative in the United States Congress. If you have any questions about how I can assist you as you continue to serve our community, please feel free to contact my Washington, DC, office at (202) 225-2201 or my Los Angeles office at (323) 757-8900.

Sincerely,

Maxine Waters
Member of Congress

cc: Ms. Bettye R. Griffith, RSI Director, bg riffith@cityofinglewood.org

Contact the Inglewood Residential Sound Insulation Program for more information about what they offer and to find out if your property is eligible: 310.412.5289
Hollywood Park Announces New Milestone, Reaching Over 50% Completion

Los Angeles County's New Landmark Destination Nears First Phase Completion as Construction Progresses on Ambitious 300-Acre Mixed-Use Development; Inside Look Showcases Emerging Retail, Office, Residential, and Entertainment Districts

The largest urban mixed-use mega-development under construction in the Western United States, is set to bring a new level of retail, office, residential and entertainment to Inglewood starting in 2021. As phase one of construction continues for its retail, office, and residential districts, the development announces 50 percent completion, along with releasing new renderings showcasing Hollywood Park's vast 300-acre project, which includes SoFi Stadium, the newly completed 70,000-seat stadium, home to the National Football League's (NFL) Los Angeles Rams and Los Angeles Chargers.

Conceived by real estate developer and Los Angeles Rams Owner/Chairman E. Stanley Kroenke, Hollywood Park will become a city within a city with its recreational outdoor plaza as its social heart. Going beyond SoFi Stadium, Hollywood Park will include up to five million square feet of creative office space, an exceptional retail district reaching up to 890,000 square feet, a 6,000-seat performance venue, a 300-room hotel, and up to 2,500 new sophisticated residences. The expansive outdoor-oriented districts will border a six-acre artificial lake while being interlaced with 25 acres of tree-lined public parks and grand plazas.

"It is exciting to witness this new destination take shape into what has become one of Los Angeles' most profound and architecturally significant landmarks," said Jason Gannon, managing director of SoFi Stadium and Hollywood Park. "The entire 300-acre development encapsulates world-class design and architectural elements that present an incredible experience unlike any other development in the country. We look forward to continue bringing the destination to life and further realizing Stan Kroenke’s vision for Los Angeles' newest destination."

"Hollywood Park's vibrant outdoor plazas connect the varied uses of this regional destination," said Chris Meany of Wilson Meany, development manager of Hollywood Park. "It responds to Stan Kroenke’s mandate that Hollywood Park succeed on two levels: as a global entertainment destination and as an urban village that delivers what so many of us seek today – high quality residences, environmentally superior offices, in a walkable neighborhood that enriches our quality of life."
Integrated, Flexible Office Spaces for the Future of Innovation

Hollywood Park will be a significant new office submarket on the south side of Los Angeles bringing a total of approximately five million square feet of commercial space. Hollywood Park's first 380,000 square feet Class A office building, the NFL Building at Hollywood Park, is under construction and will open in 2021. Design is underway for an additional 500,000 square feet of office space. Designed to accommodate even the world's largest organizations, Hollywood Park will come equipped with one of the most sophisticated technologically advanced infrastructures in the world. Buildings are designed to address the flexibility and scale most critical for media, technology, and entertainment firms in the years ahead. Future office tenants will benefit from SoFi Stadium's revolutionary emerging technologies, including a robust dark fiber network with best-in-class 24/7 security, access to the industry's newest and ultra-fast 5G network, and the largest-ever Wi-Fi 6 implementation for immersive-experience applications. Unlike any other open-campus setting, Hollywood Park's creative office spaces will bring various roof decks and generous terraces allowing for views of SoFi Stadium amidst the bustling, pedestrian-friendly 300 acres.

Starting summer 2021, the NFL will relocate its West Coast headquarters from Culver City to Hollywood Park occupying 214,063 square feet of office space within the NFL Building at Hollywood Park. A custom-built NFL studio and studio support space totaling 74,922 square feet has also been leased. As Hollywood Park's first signed office tenant, the NFL will serve as the anchor tenant for the Gensler-designed innovative office campus. Designed to meet LEED Gold standards, the NFL Building at Hollywood Park will offer a stunning ground floor lobby with high-end finishes, a shared roof top garden for all tenants and generous terraces on each floor. Each 55,000-square-foot floor will feature large, open floorplates with ample natural light and expansive floor-to-floor heights of over 13 feet high. Each private terrace will provide exclusive vantage points into SoFi Stadium and the adjacent demo field in front of the NFL Studio Building that is designed for outdoor broadcasting experiences and made open to the public when not in use by the NFL. An additional 165,000 square feet, encompassing floors five through seven, currently remains available for lease.

Located near major freeways, only six miles from the California coast and four miles from Los Angeles International Airport (LAX), Hollywood Park will allow employers to draw in highly sought talent from surrounding regional areas, including Los Angeles, Orange County, South Bay, the San Fernando Valley and beyond. Integrated with the incredible retail hub, first-class dining and entertainment, and views of SoFi Stadium's breathtaking architectural design, there is carte blanche for companies to reimagine their future workspaces and make Hollywood Park their own.

Reshaping Los Angeles' Retail Scene

The first phase of Hollywood Park's dynamic retail district will total 500,000 square feet, with 320,000 square feet currently under construction and scheduled to open spring 2022. Starting next year, Hollywood Park will bring local businesses and big-name international brands stretching across multiple blocks and walkable courtyards. With an emphasis in diversity and inclusion, Hollywood Park's newest tenants will feature local concepts including LUVFUL led by South Los Angeles' Peace Love Reedburg, a new location for Los Angeles' own Sky's Gourmet Tacos, founded by female entrepreneur Barbara Burrell, a second location for family-owned, Inglewood-based juice bar Antojitos Martin, and a second Inglewood location for Residency Art Gallery, a platform for artists of color. These new retailers will be joined by global luxury cinema company Cinépolis, the latest venture from Lynne Weaver, founder of Inglewood's Three Weavers Brewing Company, and Long Beach's Iconix Fitness.

As a smart city, Hollywood Park will offer all retail tenants access to a robust security and infrastructure network that is cross-connected with the sophisticated offering at SoFi Stadium. Through a connected mobile application, residents, tenants, and visitors will enjoy a series of benefits that will enhance their experiences onsite. Future Hollywood Park guests will enjoy experiential retail programming such as lakefront dining and cocktails; summer movies and local music in the park; art shows; a 20,000-square-foot international culinary marketplace, and more.

New Elevated Apartment Residences Within Thriving Retail and Entertainment Community

The first 314 residences at Hollywood Park will reach completion a few months following Super Bowl LVI in 2022. A new collection of sophisticated residences will offer easy access to dynamic retail, a range of restaurants, shops, and entertainment venues, and miles of greenery, sidewalks, and bike lanes. Designed to appeal to the most discerning renter, the residences at Hollywood Park will offer bright and airy living spaces with private balconies, expansive ceilings, and timeless design. A forward-thinking amenity collection will consist of ample work-from-home spaces, outdoor dining areas, large sky decks, a landscaped pool with private cabanas and spa terraces, clubroom, screening rooms, fitness studios, pet spas, secure bicycle and vehicle parking, and more.

Read the full article on PRNewswire.com. To learn more about Hollywood Park, please visit www.hollywoodparklife.com and follow on Instagram, Facebook, Twitter and LinkedIn.
IUSD Enrollment and Family Resource Fair

IUSD is excited to announce their Enrollment and Family Resource Fair on Saturday, July 31, 2021 from 10:00 a.m. - 2:00 p.m. at Caroline Coleman Stadium. Please join us to learn additional information about our schools, health and wellness services, family resources, job fair and more! Families and students will also have an opportunity to win raffle prizes, and participate in fun activities, music and food! Additional details regarding the enrollment fair are coming soon. Please visit our IUSD website at www.inglewoodusd.com for updates.

FREE Grab and Go Lunch at the Inglewood Public Library

Lunch on us! The City of Inglewood is now offering FREE Grab-n-go lunches at the Crenshaw-Imperial Branch public library!

Please check out the flyer for more information!
Graffiti - Don't Ignore the Problem!

The mission of Graffiti Abatement is to remove graffiti from private and public property throughout the city within 24 hours of identification and/or notification. To report graffiti on public property or to request abatement services from private property in Inglewood, please call the graffiti abatement hotline number listed below with the following information: specific address or location, description of graffiti, caller's name and phone number (optional).

Graffiti removal services are provided free to Inglewood residents and businesses. The City employs full and part-time employees, identified by their white regulation uniforms and shirts. We utilize safe and professional removal systems to eradicate graffiti.

What You Can Do
- Become involved. Call the Police.
- Call the Graffiti Abatement Hotline at 310-412-8739.
- Increase exterior illumination.
- Remove graffiti yourself.
- Report graffiti immediately.
- Use landscaping to cover walls.

Impact of Graffiti
- Diverts prospective businesses to other cities
- Encourages more graffiti
- Reduces property values
- Sends a negative message to residents and visitors

Please help us control the spread of graffiti in our community.

When a Street Light Goes Out...

In Inglewood, residential street lighting is handled by Southern California Edison (SCE). The process of reporting a broken street light is simple. To make a report take note of the code assigned to the light pole (look on the metal plate on the side of the light pole), then log on to Southern California Edison's website: https://www.sce.com/outage-center/report-street-light-outage to enter the information regarding the problem. SCE the problem is typically fixed within 10 days.

If there is no metal plate with a code number on it, the light pole is likely managed by the City of Inglewood. In this case, call the Public Works Department at: 310-412-5333 and take note of the nearest address of the broken light pole. Our city staff will then come out to repair the light.
Do you have a Budding Artist in your Home?

The Cayton Children’s Museum has teamed up with the City of Inglewood to offer the Budding Artists premiere program, Summer Exploration Program is designed for young children ages 3 -5.

Budding Artists premiere program, **Summer Exploration Program** is designed for young children ages 3 -5. The 2021, six-week visual arts virtual summer experience will include two teaching sessions by the Cayton Children’s Museum as well as a virtual culminating exhibition with Open Walls.

The program is **FREE** to Inglewood residents, art materials are provided. Click **HERE** to register today as space is limited.
COVID-19 Rent Relief Program

The State has announced the launch of a COVID-19 Rent Relief Program. Income eligible households who need financial assistance for unpaid rent and utilities will be able to apply for help through this program. If you have experienced a financial hardship due to COVID-19, have past due rent or utilities, and have a household income that is not more than 80% of the area median income, you may be eligible to receive help to pay past due or future rent and utilities from the state of California. Landlords and renters can verify eligibility immediately by visiting HousingIsKey.com, or by calling 833-430-2122, and if eligible, apply.

Landlord COVID-19 Rent Relief Program

If your tenants are behind on their rent payments due to COVID-19, the CA COVID-19 Rent Relief Program can help you and your tenant. The County of Los Angeles is partnering with the State of California to make property owners aware of the CA COVID-19 Rent Relief Program.

On January 29, 2021, Governor Gavin Newsome signed SB 91, which established the CA COVID-19 Rent Relief Program, allocating $2.5 billion in federal rent assistance to provide financial help to income-qualified tenants experiencing housing instability. The Program provides rent reimbursement to property owners for unpaid rent accrued between April 1, 2020, and March 31, 2021.

Landlords who have income-eligible renters experiencing financial hardship due to COVID 19 with past due rent are eligible to apply. To determine eligibility and apply for funds, visit HousingIsKey.com, or call the CA COVID-19 Rent Relief Call Center at 833.430.2122. The attached flyer provides additional detail.
Whether it's a public health emergency like COVID-19 or natural disasters like wildfires, Californians have embraced a culture of preparedness.

If you had only 15 minutes to leave your home or apartment what would you take with you? Write down what you should bring for everyone in your household. Think about the needs of family members with disabilities and medical conditions when making a plan. Find simple steps, tips, and resources for you and your community:

The County of Los Angeles Department of Animal Care and Control (DACC), in collaboration with the ASPCA, has launched a Got Kittens? campaign to help community members determine whether a stray kitten is in need and to assist in providing solutions that support these animals' ultimate well-being. While it may seem that bringing stray kittens to an animal shelter is the best option, it is better for the kittens to remain with their mother until they are old enough to be adopted rather than unintentionally removing them from their mother cat. Or, if the mother is no longer with them, to place them in a foster home where they will receive individual attention.

The Got Kittens? campaign asks the community to follow these steps when finding a kitten:

1. Determine whether the kitten is in need. Healthy, clean, quiet kittens are generally cared for by their mother, who might be hiding or out getting food if she is not visible. Learn how to tell whether a kitten needs your help by using the ASPCA’s new online tool: [ASPCA.org/FoundKittens](https://ASPCA.org/FoundKittens)

2. Sign up to foster kittens at [https://animalcare.lacounty.gov/become-a-foster-caretaker/](https://animalcare.lacounty.gov/become-a-foster-caretaker/)

3. Educate yourself and help spread the word. Visit [https://animalcare.lacounty.gov/got-kittens/](https://animalcare.lacounty.gov/got-kittens/) to learn more and share the information with friends and family members.

4. Support DACC’s efforts to save kittens by donating or purchasing an item off our kitten care wish list at [https://animalcare.lacounty.gov/donate/](https://animalcare.lacounty.gov/donate/)

The ASPCA’s new online tool (ASPCA.org/FoundKittens) helps the public choose the best next steps to take if they find stray kittens outdoors. More resources about kittens can also be found on the DACC website: [https://animalcare.lacounty.gov/got-kittens/](https://animalcare.lacounty.gov/got-kittens/)
PAPER SHREDDING

Saturday, August 14, 2021
9:00 AM - 1:00 PM
In Front of Inglewood High School

Happy sunny summer days! As we continue on our path to ending the COVID-19 Pandemic, I want to remind you that this is not yet over. The statistics show that the numbers of positive cases are on the rise in our black and brown communities and there is a direct correlation to vaccination rates. 99% of all new cases are of unvaccinated people. I encourage you all to protect yourself, your family, friends, and children that are unable to be vaccinated by getting your shot today. Vaccination is free and your immigration status is not a factor in eligibility. I implore you to please do all that you can to stay safe!

Did you celebrate CROWN day? July 3rd, 2021 marked the two-year anniversary of the signing of the CROWN Act (Create a Respectful and Open World for Natural Hair.) The CROWN act, which went into effect on January 1, 2020, expands the definition of race in the Fair Employment and Housing Act (FEHA) and Education Code “to ensure legal protection against race-based hair discrimination in workplaces and in K-12 public and charter schools.” Governor Gavin Newsom signed the bill into law making California the first state to ban hair discrimination of protective hairstyles and hair textures associated with race. Since then 12 more states and 29 municipalities have followed suit by enacting the CROWN Act or laws inspired by the act. We are protected in California, but many states are still fighting for this right. So please continue to call on federal legislators to pass the CROWN Act in Congress.
Almost all recent COVID-19 deaths in the US were among unvaccinated people, according to preliminary data from the Centers for Disease Control and Prevention.

People who have not been vaccinated "remain susceptible, especially from the transmissible Delta variant, and are particularly at risk for severe illness and death," Dr. Rochelle Walensky, the director of the CDC, told a press briefing on Thursday. "Preliminary data from several states over the last few months suggest that 99.5% of deaths from COVID-19 in the United States were in unvaccinated people," Walensky said. Walensky did not give a specific time frame for the data.

The estimate is in line with findings from a June analysis from the Associated Press, which found that only 0.8% of people who died from COVID-19 in the US in May were vaccinated.

Walensky's comments come as the highly transmissible Delta variant is spreading across the country. Estimates published this week from the CDC indicate that the variant makes up more than half of the cases in the US. "Although we expected the Delta variant to become the dominant strain in the US, this rapid rise is troubling," Walensky said, adding that the variant was surging in pockets of the country with low vaccination rates.

Nationwide, hospitalization and deaths remain far lower than the numbers seen in January, something Walensky credited to a successful vaccination campaign. But cases and hospitalization are rising in US counties where vaccination rates are low, she said. Walensky said 173 counties had case rates above 100 per 100,000 people. That's about three times the national average of about 32 cases per 100,000, according to CDC data. Nine in 10 of those 173 counties had vaccinated fewer than 40% of their residents, she said.

On Tuesday, President Joe Biden proposed changes to the US vaccination campaign, including suggesting a door-to-door vaccination effort.

Walensky also said on Thursday that the authorized vaccines in the US could prevent severe disease, hospitalization, and death from the Delta variant. Data indicates that two doses of the Pfizer-BioNTech, Moderna, or Oxford-AstraZeneca COVID-19 vaccines are highly protective against Delta. Read the full article at BusinessInsider.com
Councilmember Dionne Faulk Tours Beckman YOLA Center

Councilmember Faulk is excited to share pictures from her recent tour of the near-finished Beckman YOLA Center in downtown Inglewood. The City of Inglewood is proud to host a state-of-the-art, stunning and educational building in the community for our youth.

Stay tuned for details on the grand opening on August 15th.
This month I stopped by We Cupcake for the first time and was AMAZED by how good their cupcakes are and I’m thrilled to share this District 4 gem with the community. I’m telling you this was a special treat!!

For over 5 years, Owner, Denise Harris has baked 15 different cupcake flavors every day. So when you come into her store, your options are all freshly made. Yes, We Cupcake sells traditional cupcakes, but, they also bake and design creative custom cakes to order. Did I mention they specialize in alcohol-infused cupcakes? Their "adult" cupcakes are made to order with the alcohol of your choice. The alcohol is first baked in for flavor then infused in so that you can taste it, and finally infused into the frosting as well.

But wait there's more! We Cupcake also has an array of sweet treats that include: chocolate-dipped and decorated jumbo pretzel sticks and/or strawberries, graham cracker s'mores, cake pops, and shaped and decorated cookies, banana pudding, peach cobbler, and, still, many other treats.

All of your special occasions can be accommodated with your made-to-order, one-of-a-kind design or you may choose from their gallery of fan favorites. Whether it's a Bridal or Baby Shower, Wedding, Anniversary, Birthday, Quinceañera, Bar/Bat Mitzvah, Graduation, or any other life event you wish to commemorate, make We Cupcake your first choice.

"Happiness is only a cupcake away", so if you're in the mood for a well-deserved splurge or planning for a special event, stop by We Cupcake. You won't regret it!

Inglewood Awarded a $5+ Million Federal Sound Insulation Grant

July 2, 2021

The Honorable James T. Butts
Mayor
City Hall
City of Inglewood
1 Manchester Boulevard
Inglewood, CA 90301
JButts@cityofinglewood.org

The Honorable Alex Padilla
Inglewood City Councilman
APadilla@cityofinglewood.org

The Honorable Hoy Morales, Jr.
Inglewood City Councilman
EMorales@cityofinglewood.org

The Honorable George Dotson
Inglewood City Councilman
GDotson@cityofinglewood.org

The Honorable Dionne Faulk
Inglewood City Councilwoman
DFaulk@cityofinglewood.org

Dear Mayor Butts and Councilmembers:

I write to express my sincere and wholehearted congratulations to the City of Inglewood upon your receipt of a federal grant of $5,333,333 from the Federal Aviation Administration (FAA) for residential noise mitigation for residences in the vicinity of LAX. It is gratifying to know that this grant will enable the City of Inglewood to provide residential noise mitigation for an estimated 333 Inglewood residences.

I am pleased to help make these grants available to my district, where I have received numerous complaints year in and year out about airport noise emanating from LAX. I will continue to work to ensure that my constituents who live near LAX can enjoy peace and quiet in their homes.

I look forward to continuing to work with you as your Representative in the United States Congress. If you have any questions about how I can assist you as you continue to serve our community, please feel free to contact my Washington, DC, office at (202) 225-2201 or my Los Angeles office at (323) 757-8900.

Sincerely,

Maxine Waters
Member of Congress

cc: Ms. Bettye R. Griffith, RSI Director, bg Griffith@cityofinglewood.org

Contact the Inglewood Residential Sound Insulation Program for more information about what they offer and to find out if your property is eligible: 310.412.5289
Hollywood Park Announces New Milestone, Reaching Over 50% Completion

Los Angeles County's New Landmark Destination Nears First Phase Completion as Construction Progresses on Ambitious 300-Acre Mixed-Use Development; Inside Look Showcases Emerging Retail, Office, Residential, and Entertainment Districts

The largest urban mixed-use mega-development under construction in the Western United States, is set to bring a new level of retail, office, residential and entertainment to Inglewood starting in 2021. As phase one of construction continues for its retail, office, and residential districts, the development announces 50 percent completion, along with releasing new renderings showcasing Hollywood Park's vast 300-acre project, which includes SoFi Stadium, the newly completed 70,000-seat stadium, home to the National Football League's (NFL) Los Angeles Rams and Los Angeles Chargers.

Conceived by real estate developer and Los Angeles Rams Owner/Chairman E. Stanley Kroenke, Hollywood Park will become a city within a city with its recreational outdoor plaza as its social heart. Going beyond SoFi Stadium, Hollywood Park will include up to five million square feet of creative office space, an exceptional retail district reaching up to 890,000 square feet, a 6,000-seat performance venue, a 300-room hotel, and up to 2,500 new sophisticated residences. The expansive outdoor-oriented districts will border a six-acre artificial lake while being interlaced with 25 acres of tree-lined public parks and grand plazas.

"It is exciting to witness this new destination take shape into what has become one of Los Angeles' most profound and architecturally significant landmarks," said Jason Gannon, managing director of SoFi Stadium and Hollywood Park. "The entire 300-acre development encapsulates world-class design and architectural elements that present an incredible experience unlike any other development in the country. We look forward to continue bringing the destination to life and further realizing Stan Kroenke's vision for Los Angeles' newest destination."

"Hollywood Park's vibrant outdoor plazas connect the varied uses of this regional destination," said Chris Meany of Wilson Meany, development manager of Hollywood Park. "It responds to Stan Kroenke's mandate that Hollywood Park succeed on two levels: as a global entertainment destination and as an urban village that delivers what so many of us seek today – high quality residences, environmentally superior offices, in a walkable neighborhood that enriches our quality of life."
**Integrated, Flexible Office Spaces for the Future of Innovation**

Hollywood Park will be a significant new office submarket on the south side of Los Angeles bringing a total of approximately five million square feet of commercial space. Hollywood Park's first 380,000 square feet Class A office building, the NFL Building at Hollywood Park, is under construction and will open in 2021. Design is underway for an additional 500,000 square feet of office space. Designed to accommodate even the world's largest organizations, Hollywood Park will come equipped with one of the most sophisticated technologically advanced infrastructures in the world. Buildings are designed to address the flexibility and scale most critical for media, technology, and entertainment firms in the years ahead. Future office tenants will benefit from SoFi Stadium's revolutionary emerging technologies, including a robust dark fiber network with best-in-class 24/7 security, access to the industry's newest and ultra-fast 5G network, and the largest-ever Wi-Fi 6 implementation for immersive-experience applications. Unlike any other open-campus setting, Hollywood Park's creative office spaces will bring various roof decks and generous terraces allowing for views of SoFi Stadium amidst the bustling, pedestrian-friendly 300 acres.

Starting summer 2021, the NFL will relocate its West Coast headquarters from Culver City to Hollywood Park occupying 214,063 square feet of office space within the NFL Building at Hollywood Park. A custom-built NFL studio and studio support space totaling 74,922 square feet has also been leased. As Hollywood Park's first signed office tenant, the NFL will serve as the anchor tenant for the Gensler-designed innovative office campus. Designed to meet LEED Gold standards, the NFL Building at Hollywood Park will offer a stunning ground floor lobby with high-end finishes, a shared roof top garden for all tenants and generous terraces on each floor. Each 55,000-square-foot floor will feature large, open floorplates with ample natural light and expansive floor-to-floor heights of over 13 feet high. Each private terrace will provide exclusive vantage points into SoFi Stadium and the adjacent demo field in front of the NFL Studio Building that is designed for outdoor broadcasting experiences and made open to the public when not in use by the NFL. An additional 165,000 square feet, encompassing floors five through seven, currently remains available for lease.

Located near major freeways, only six miles from the California coast and four miles from Los Angeles International Airport (LAX), Hollywood Park will allow employers to draw in highly sought talent from surrounding regional areas, including Los Angeles, Orange County, South Bay, the San Fernando Valley and beyond. Integrated with the incredible retail hub, first-class dining and entertainment, and views of SoFi Stadium's breathtaking architectural design, there is carte blanche for companies to reimagine their future workspaces and make Hollywood Park their own.

**Reshaping Los Angeles' Retail Scene**

The first phase of Hollywood Park’s dynamic retail district will total 500,000 square feet, with 320,000 square feet currently under construction and scheduled to open spring 2022. Starting next year, Hollywood Park will bring local businesses and big-name international brands stretching across multiple blocks and walkable courtyards. With an emphasis in diversity and inclusion, Hollywood Park’s newest tenants will feature local concepts including LUVFUL led by South Los Angeles’ Peace Love Reedburg, a new location for Los Angeles’ own Sky’s Gourmet Tacos, founded by female entrepreneur Barbara Burrell, a second location for family-owned, Inglewood-based juice bar Antojitos Martin, and a second Inglewood location for Residency Art Gallery, a platform for artists of color. These new retailers will be joined by global luxury cinema company Cinépolis, the latest venture from Lynne Weaver, founder of Inglewood’s Three Weavers Brewing Company, and Long Beach’s Iconix Fitness.

As a smart city, Hollywood Park will offer all retail tenants access to a robust security and infrastructure network that is cross-connected with the sophisticated offering at SoFi Stadium. Through a connected mobile application, residents, tenants, and visitors will enjoy a series of benefits that will enhance their experiences onsite. Future Hollywood Park guests will enjoy experiential retail programming such as lakefront dining and cocktails; summer movies and local music in the park; art shows; a 20,000-square-foot international culinary marketplace, and more.

**New Elevated Apartment Residences Within Thriving Retail and Entertainment Community**

The first 314 residences at Hollywood Park will reach completion a few months following Super Bowl LVI in 2022. A new collection of sophisticated residences will offer easy access to dynamic retail, a range of restaurants, shops, and entertainment venues, and miles of greenery, sidewalks, and bike lanes. Designed to appeal to the most discerning renter, the residences at Hollywood Park will offer bright and airy living spaces with private balconies, expansive ceilings, and timeless design. A forward-thinking amenity collection will consist of ample work-from-home spaces, outdoor dining areas, large sky decks, a landscaped pool with private cabanas and spa terraces, clubroom, screening rooms, fitness studios, pet spas, secure bicycle and vehicle parking, and more.

Read the full article on PRNewswire.com. To learn more about Hollywood Park, please visit www.hollywoodparklife.com and follow on Instagram, Facebook, Twitter and LinkedIn.
IUSD Enrollment and Family Resource Fair

Graffitti - No ignores el problema!

La mission de disminución de graffiti es de remover graffiti de propiedades privadas y públicas portada la ciudad dentro de 24 horas de identificación y notificación. Para reportar graffiti en propiedades públicas o para solicitar servicios de disminución de graffiti en propiedades privadas en Inglewood, por favor llame a la Hotline de Graffiti con la siguiente información: dirección o locación de graffiti, descripción del graffiti, su nombre y número de teléfono (opcional).

Servicios para remover graffiti son gratis para los residentes y negocios de Inglewood. La Ciudad emplea trabajadores de tiempo completo y tiempo parcial y son identificados por sus uniformes blancos de reglamento. Utilizamos sistemas profesionales y seguros para radicar el Graffiti.

Qué Puede Hacer?

- Involucrate llamando a la policía al teléfono 310-412-5210 si ves "taggers" en proceso
- Reporta inmediatamente el graffiti al Graffiti Hotline al 310-412-8739
- Remueva el graffiti usted mismo
- Use métodos ornamentales para cubrir paredes
- Incremente el uso de luces exteriores

Impacto del Graffiti

- Aníma a promover más graffiti
- Reduce los valores de la propiedad
- Desvía negocios prosperos a otras ciudades
- Envía mensajes negativos a visitantes y residentes

When the Street Light Goes Out...

In Inglewood, residential street lighting is handled by Southern California Edison (SCE). The process of reporting a broken street light is simple. To make a report take note of the code assigned to the light pole (look on the metal plate on the side of the light pole), then log on to Southern California Edison's website: https://www.sce.com/outage-center/report-street-light-outage to enter the information regarding the problem. SCE the problem is typically fixed within 10 days.

If there is no metal plate with a code number on it, the light pole is likely managed by the City of Inglewood. In this case, call the Public Works Department at: 310-412-5333 and take note of the nearest address of the broken light pole. Our city staff will then come out to repair the light.
This year, the program boasts a six-week visual arts virtual summer experience that will include two teaching sessions by Cayton Children’s Museum as well as a virtual culminating exhibition with Open Walls.

The program is FREE to Inglewood residents, art materials are provided. Click HERE to register today as space is limited.
