Public Notice

For Immediate Release

January 29, 2022 – The City of Inglewood is holding a Community Redistricting Workshop from 11:00 a.m. - 1:00 pm in the Council Chambers to provide valuable information regarding City Council District 1,2,3, and 4. Every 10 years the United States conducts a census to count the population. According to Assembly Bill No. 849, existing law establishes criteria and procedures pursuant to which cities and counties adjust or adopt council and supervisorial district area boundaries, as applicable, for the purpose of electing members of the governing body of each of those local jurisdictions.

The workshop will include an overview of the redistricting process, to solicit input from Inglewood residents, and to introduce the City's redistricting mapping tool. All Inglewood residents are encouraged to submit any questions via email to athompson@cityofinglewood.org or aallen@cityofinglewood.org or attend the workshop via Facebook Live to inquire more about the redistricting process and the impact it will have in our community.

For more upcoming information regarding the redistricting process, please visit the City Clerk's page at www.cityofinglewood.org/414/City-Clerks-Office or call my office at (310) 412-5280

Aisha L. Thompson
